1 Introduction -

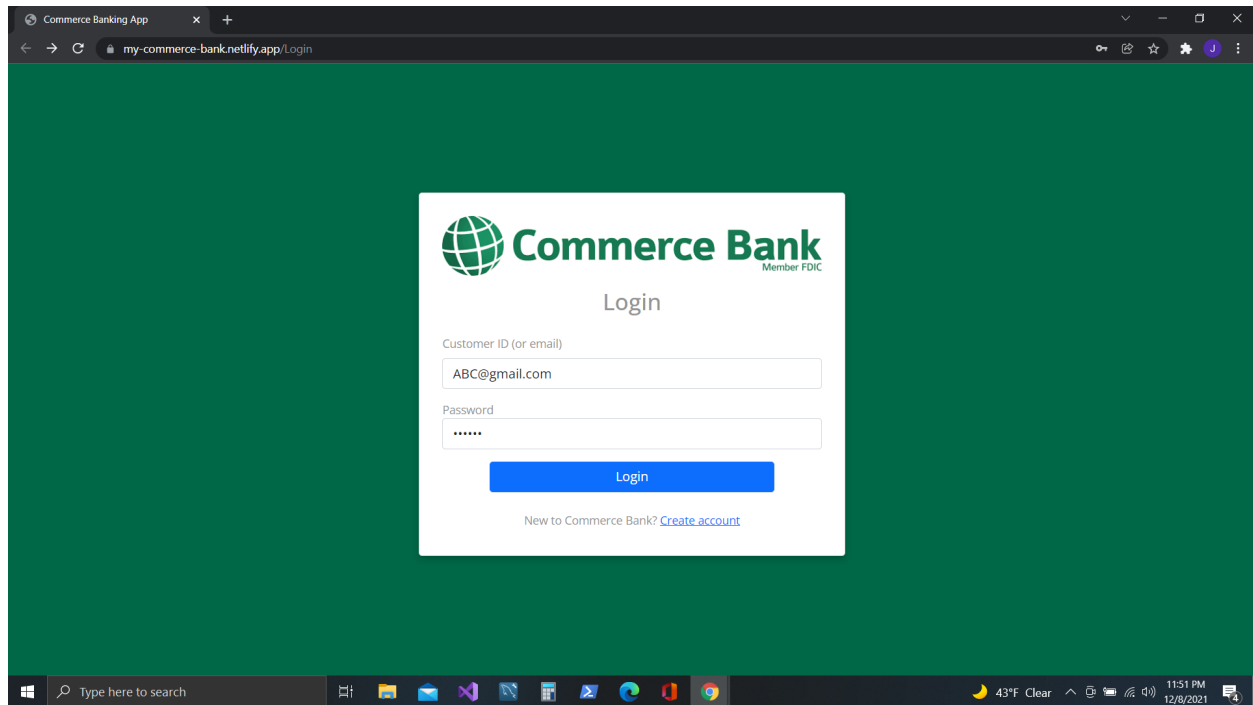

The Commerce Bank web application allows users to create a banking account which will allow them to log in and view their transaction history. It will also allow them to add new transactions, and more. This document will provide instructions for using the application to view balance, see recent transactions.

2 Quick Start Guide -

1. Go to your browser and Type in the link <https://my-commerce-bank.netlify.app/Login> .
The login screen should be brought up.

2. Enter your ID and Password.

3. Tap the Login button.

4. Transaction summary page will be displayed.

The screenshot shows the "Transaction Summary" page of the Commerce Banking App. The page has a green header with the Commerce Bank logo and a "Logout" button. Below the header is a table with transaction details. The table has columns: Account Type, Account Id, Amount, Balance, Location, Processing Date, and Transaction Type. The table contains 16 rows of transaction data. A scroll bar is visible on the right side of the table. The Windows taskbar is visible at the bottom.
